

TAFT'S IDEAS ARE ALL IN LEAGUE

Cox Makes Public Correspondence With Wilson, Showing How Taft Has Changed

(By Associated Press) Springfield, Ill., Oct. 11.—Cable correspondence between President Wilson and former President Taft in 1919, during drafting of the League of Nations covenant at Paris, was made public here by Gov. James M. Cox, of Ohio, Democratic Presidential candidate, together with a statement by the candidate criticizing severely Senator Henry Cabot Lodge, of Massachusetts, and other League opponents.

Mr. Taft, the correspondent detailed, sought and had cable communication with President Wilson submitting numerous suggestions for changes in the tentative League draft and advising the President regarding its presentation to the Senate.

Gov. Cox's statement issued prior to his departure to make addresses in East St. Louis Monday and St. Louis, Mo., said that he published the Taft-Wilson correspondence—a White House memorandum—because of the "equivocal position former President Taft and other friends of the League now occupy in their support of the candidate of the League destructionists."

The correspondence, Gov. Cox said, was "initiated by Mr. Taft as a result of his study of the draft agreement," and he quoted Mr. Taft's own words, "when sincerity of mind and intelligence were not beclouded by the partisan prejudice of a political campaign."

The White House memorandum containing some of the cables exchanged by President Wilson and Mr. Taft, stated that in every instance, the President followed Mr. Taft's suggestions, and Gov. Cox's statement declared that "every suggestion of Mr. Taft was followed literally."

The correspondence indicated that Mr. Taft's suggestion dealt principally with protecting the Monroe Doctrine and dealing with American domestic questions, withdrawal from the League, unanimous League decisions and disarmament.

The correspondence made public contained two cablegrams from the President to Mr. Taft and several from Mr. Taft to the Executive, including one in which A. Lawrence Lowell, president of Harvard University, joined.

The White House memorandum quoted at length League amendments to show adoption of Mr. Taft's suggestions.

The final cablegram from Mr. Taft sent to Secretary Tumulty and forwarded to the president, as given in the published correspondence, was dated June 28, 1919 just before the president returned to present the treaty to the Senate. It reads:

"I would like to send a return message and that is that the president argue the league and its necessity; the impossibility to secure peace without it, the dreadful unrest in Europe, the pressure of our allies to ratify and secure peace at once, the need of the league with the United States to stabilize and to resist Bolshevism, the necessity for renewal of negotiations if an important amendment like striking out Article X is made, the absurdity of a congressional declaration of peace on one side, the giving up of all objects of war in such a peace if Germany were to make a similar declaration. I hope sincerely he will not attack the republican Senators. His appeal will be much more influential if he pleads his cause and does not attack the opposition."

BIG SPEAKFEST HELD ON SATURDAY

Madison county had a specialty Saturday afternoon and evening in the way of democratic speeches and the interest manifested by the residents of the county is out of the ordinary. Chairman John C. Chenault, of the Madison county Democratic Campaign Committee stated that "while his capacity was taxed" by calls for speakers, there was not any lacking, since all calls had been responded to and big crowds characterized the more than half a dozen speeches in the evening at various places. At Bobtown and Big Hill, as well as other places, the attendance was large.

Mayor Evans, who was to have filled the speaker's stand at Union City, found it impossible at a late hour, and a substitute was provided. Judge Chenault himself went to Kavanaugh, where he was greeted by a large number of interested listeners. Mrs. Payne and Mrs. Holton were also at this place, and their talk is said to have especially interested the women. At Bobtown, County Attorney O. P. Jackson delivered an old time address in behalf of the leading issues to a large and enthusiastic crowd.

At Big Hill, Rev. O. O. Green officiated in a manner denoting that he was not only well versed upon the issues of the day, but vitally interested and earnest in his appeal for the League of Nations. It is said that next Saturday, as well as the week generally, will record an unusual one in the way of the number of speeches throughout the county and a number of local speakers will be busily engaged during their spare time, as will a number of well known orators from other places. Preparations are being made for a big meeting at Red House Tuesday night, when there will be speaking at the Methodist church there.

ADDRESS UPHOLDS PRESIDENT'S DENIAL

(Political Advertisement)

Washington, Oct. 11.—Without comment the White House today made public a part of President Wilson's address on the peace conference, in which Senator Spencer, Republican, of Missouri, charged in a political address that the president premier Roumania and Serbia "if any nation ever invaded their territory" he would send an American army across the seas to defend their boundary lines.

Recently President Wilson said the senator's statement was false. The official version did not show that the president promised to send American troops abroad. It, however, referred to the expectation, for example, of Roumania, Czechoslovakia and Serbia that if any covenants of this settlement treaty were not observed the United States would send armies and navies to see that they were observed.

LOCAL K. OF P. WILL INSTITUTE BEREAL

Richmond To Send Truck Train Together With Teams and Start Big Organization

There will depart from Richmond on the afternoon of October 28 an auto truck train, comprised of several vehicles and the full paraphernalia of the K. of P. lodge for the first, second and third ranks, and the destination will be Berea, where a new lodge will be instituted. The members of the big party, which will number about 35 men, will comprise the degree teams of the Normal City Lodge, No. 162, of this city.

The new lodge will be instituted by the local degree teams at the instigation of Grand Keeper of Records and Seals of the K. of P. of the state of Kentucky J. W. Carter, of Lexington, who witnessed the work as it was exemplified here Thursday night. He has witnessed the work of the local lodge teams before and at the close of the session here he selected the local teams as the ones to do the instituting work for the new lodge at Berea. There are about 50 charter members ready to attack the obligation the last of the month and they are now awaiting the regalia and general paraphernalia.

W. L. Howe, of Richmond, recognized as one of the foremost of this locality in exemplification work, has been selected as the instituting officer. The work will be started at 7 o'clock in the evening and it is stated the entire night will be required in giving the ritualistic work representing the three degrees, which will constitute the work to be given there. It is said there will be a banquet during the evening and that elaborate preparations are being made for the entertainment of the visitors from this city. There will be a number of state officers in attendance, it is expected, as well as members of nearby lodges. A class is said to be waiting at Irvine to be initiated and will perhaps be included in the list of candidates at Berea. The Richmond lodge is recognized as one of the foremost in degree work in this part of the state and the eloquence and mastery in which the impressive features are presented is said to have been attracting the attention of the officers high in the official rank of the state for years.

R. C. MASON PAYS FIRRT PAVING BILL

R. C. Mason, Lancaster avenue, has a new asphalt pavement in front of his home, and has it paid for, about the only person in the city able to make this statement, according to reports from the city treasurer's office. This is the first payment and it is said to have proven a disappointment to one M. F. Arbuckle, also resident of Lancaster, it is said, since it has been both his desire and intention to be the first to honor the city for the payment of his paving bill.

Mr. Mason, who is an old and well known resident of the city, represents the type of resident that is a credit to any city, and his observance of the paving matter is appreciated by more than one, since it is said it will probably act as an incentive to others who are able to "come in" and pay immediately, thus doing away with the necessity of dragging an account along for years, as is the privilege, if desired upon the part of the property owner if six per cent interest is paid. The public spiritedness manifested by Mr. Mason is what spells progress and up-to-the-minute system of doing things. It is expected that there will be a big percentage who will get in on the immediate payment plan and that there will be a rush by the first of the week.

MOUNTAIN G. O. P. FOR COX AND L. OF N.

Unparalleled in the history of politics in Whitesburg was the deep interest manifested Friday night in the debate between C. H. Burton, business man of Whitesburg, a life long Republican who is in favor of Cox and the League of Nations, and Attorney D. D. Fields. It is said that the debate has caused many mountain Republicans to follow Mr. Burton's lead and support Governor Cox and the League of Nations.

Several Democratic meetings and rallies will be held in the county this week.

P. who are for the League of Nations and Cox. Head says he would not be surprised to see Cox carry Indiana by a sweeping majority.

DISTRICT GAME WARDEN ON VISIT

Spends Literature and Cautions Hunters Regarding Violations of Law

District Game and Fish Warden S. F. Gentry, of Stanford, paid Richmond his first visit Saturday and came to the city after having spent some time in investigating conditions throughout Madison county, which he reported as highly encouraging. He stated that he had been watching reports from Madison county, one of the nine over which he has jurisdiction, and was pleased with the result. Mr. Gentry admitted there had been much hunting and said there had been very few violations of the law coming to his attention.

He is preparing to pay special attention to the field during the rabbit and quail season, which opens next month, and which is said to be the greatest inducement of the year to violators of the law.

"Many will go out unprepared," he stated, "and then come upon game and without the formality of getting a license will fire away, thinking they are safe." This is the element the officers will be watching for, and an effort will be made to bring to justice every man who ventures to hunt without a license. Mr. Gentry is posting much literature and distributing booklets, etc., treating upon the law and its requirements, and said there would be strenuous efforts to prosecute every violator.

W. H. Grider, local warden, is working in conjunction with the district officer, and they will keep in close touch during the coming months when rabbits and quail are in season. It is reported that both officers have made numerous inquiries besides their own observations and have come to the conclusion there will be a great amount of game this season. They predict the greatest amount of hunting in years, an believe there will be an unusual demand for licenses within a short time. Thus far the record for the county this year is 1,000 per cent and it is the intention of the officers to continue it until the close, is possible.

GREAT RACE TUESDAY

(By Associated Press) Windsor, Canada, Oct. 11.—Incoming trains today brought thousands of racing devotees who will witness the greatest horse race ever staged, when Man O' War and Sir Barton race for the championship of the world tomorrow at the Kenilworth track for a \$75,000 purse. The race will be at a mile and a quarter.

Several local racing fans have gone to Detroit to see the great match race between Man o' War and Sir Barton Tuesday. This will be the greatest turf event in American history. The winner will receive a \$5,000 gold cup and a \$75,000 purse.

In matter of past performances there is little to choose from in the records of the great thoroughbreds who will contest for the American title. Sir Barton established a new world's record for a mile and a quarter last August when he finished in front of Exterminator, Wildair, and The Porter at Saratoga, in 2:01 4-5. Two weeks later Man o' War, over the same course, equaled that mark.

The Riddell 3-year-old has won 19 out of his 20 races. Harry P. Whitney's Upset was the only only horse that ever crossed the line in front of him in the Sanford Memorial Stakes last year, and since that beating Man o' War has defeated Upset at least four times. Sir Barton has won 13 out of 27 races, but he has been in the game a year longer than Man o' War, and has established himself as the best of 4-year-olds. Man o' War has netted his owner in winnings \$160,465. Sir Barton has collected \$114,807.

A rehearing was asked. The petition filed was by Christian Feigenspan, a brewer of New Jersey, George Dempsey, a wholesale liquor dealer of Massachusetts, on the ground that the Court failed to state the reason for conclusion holding the amendment valid.
